C/OCR Graphics Register

Note that these clippings account for several weeks accumulation and normally there would not be such an extensive selection available during any given weekly period.

Would you call me on Red 1987 when you have had a chance to review this information.

We have received the attached listing of films available on the commercial market in [REDACTED] and our representative, [REDACTED] suggested we call these to your attention. Since he receives these titles of films available on a regular basis, he is willing to arrange to forward them to us if there is any interest in the Agency. Are any of the films listed currently available in the OCR inventory or obtainable in the US at the present time? Would you be kind enough to indicate any films currently in stock which are clipped

<p><b>Remarks:</b> Walt:</p> <p>As you can see from the attached note from [REDACTED] he receives these listings of films over in [REDACTED] at a regular interval. Before I send these to the Graphics Register for dissemination among the Agency Directorates, I wonder if you have any interest (in OSI) in any of the films listed. Also, would you be interested in seeing such lists on a regular basis? Please return them at your convenience so I can send them on their way to OCR.</p> <p align="right">[REDACTED]</p>

We screen these on a weekly basis for items of possible interest to the Agency as a whole--not just DD/S&T. OCR might be interested in them for a number of reasons--OTR, Biographic Register, etc.

Would you please broker them around to see if there is any possible interest in the wide variety of items--perhaps we could develop a watch list for items that we would know to be of value and could purchase them outright.

Note, the accumulation is for several weeks--the actual time required is not over 5-10 minutes per week.
